Stress Relief Essential Oil Blend
4 oz. Calming blend of lavender and bergamot essential oils. Inhale the fragrance directly from the bottle, use it in an oil burner or diffuser, or add a few drops to a hot bath.

**How to
save the
most**

**Set Of 24 Assorted Body Mists
M-270 \$39.95**

How to use Essential Oils

Inhalation

Use a diffuser. This device is a helpful way to easily infuse any setting with the scent of your choice.

Place 3-7 drops of essential oil into a bowl of hot water, put your face over the water and a towel over your head to trap in the steam. Keep your eyes closed as you inhale through your nose.

Make a bottled spray or spritz with 10-15 drops of your favorite essential oil and one ounce of water.

Topical use

Drop it into a bath. While a bathing ritual itself can be a self-soothing treatment, adding essential oils can further benefit you.

Dilute essential oils with a carrier oil and apply the mixture to your skin. Gently rub the oil into pressure points such as your temples and wrists.

Add a few drops of essential oils to your shampoo, conditioner, and body wash or lotion.

making a difference

Amos Mwila is someone who your purchases helped to put through College and nursing school. Part of his pay is now also paid from the purchases from Africa Imports. Amos is shown here providing medical help to people in a remote village in Zambia.

Amos says that more than 50 children were treated by the medical team, and a pregnant

woman in serious condition was treated and taken to the closest hospital where a caesarean section birth was completed. A live male infant was born, and both the mother and baby are stable and discharged.

Your purchases not only help support African craftspeople, but help many other children in need in Africa.
