Making a Difference

This couple lives in George, South Africa, where they do job training and counseling. The project they started is called "Work For A Living". They train people who are less skilled and with financial need with job skills. We were able to meet and speak with them by Whatsapp for the first time a few weeks ago, but we had heard about them from some other people we know who loved their work. They are truly dedicated and inspiring people to meet. Although they are well educated, they choose to live on a very modest income to help others this way.

Your purchases at Africa Imports help to support dozens of other people like Vusi and Ayanda.

Why Oils?

You get more for your money. A little bit of oil goes a long way. The perfume oils normally last much longer than perfumes. Most colognes and perfumes are made with only about 15% oil.

The pure oils give you a lot more fragrance for a lot less money.

You can make your own signature fragrances. You can mix different oils together to get the perfect scent just for you.

What is the difference between oils that you burn and oils that you wear?

There is no difference in the oil itself. Some oils are popular for burning, because people like that fragrance in their home - you can think of cherry or frankincense. Other oils are most popular as perfumes. A person may not want to smell like cherry, and may not want their house to smell like Chanel #5. But a person can wear cherry and can burn Chanel #5 if they want to.

What is the difference between fragrance oil and essential oil?

Essential oils are made from plants and other natural products which are distilled to produce the oil. The process for this is sometimes very

expensive. Essential oils are completely natural, but also normally more expensive, and not available for most fragrances. Designer named fragrance oils are never essential oils. You can have a Barack Obama fragrance oil, but there is no such thing as a Barack Obama essential oil.

Fragrance oils are used to make perfumes, cosmetics, and flavorings. These will normally smell just as powerful as essential oils. They can be made to almost any fragrance, not just nature scents, and their cost is

normally much lower than the essential oils. These give you more options, and a lot more for your money.

How oils save you money

Department store perfumes and colognes are normally just 15% oil and contain a lot of alcohol and other chemicals. With these oils, you get only the pure and uncut oil.

- *Lasts much longer than perfumes when you wear them*
- *Goes a long way when you buy them*
- *Feels better. Your skin is moisturized by the oils.*

Cutting Oils

Help your oils last longer

Normally our customers sell the oils uncut. There are times when oils need to be cut, however. DPG is normally mixed with oils when they are being used in an oil burner or in making incense. Grapeseed oil is the lowest priced carrier oil used to mix with oils that are being used as body oils.

Making lives better for small businesses around the world

Africa Imports wants to make a difference. Here are a few ways we do.

1. Thousands of African creations are much easier to get now.
2. Hundreds of orphan children in Africa are given meals each day from the purchases you make.
3. You get free tools, training, and other information for your African business.

Seeing the children and communities in Africa who are helped by your purchases, truly is what drives us as people and as a company. Whenever you sell anything from Africa Imports, someone in Africa is helped.

Africa Imports has 20 years of business experience. You have access to a full team of knowledgeable and dedicated people. We can help you succeed faster and easier in your own African products business. And we want you to succeed. Africa Imports only succeeds when you do.
