Stress Relief Essential Oil Blend
4 oz. Calming blend of lavender and bergamot essential oils. Inhale the fragrance directly from the bottle, use it in an oil burner or diffuser, or add a few drops to a hot bath.
H-040-4

How to use Essential Oils

Inhalation

Use a diffuser. This device is a helpful way to easily infuse any setting with the scent of your choice.

Place 3-7 drops of essential oil into a bowl of hot water, put your face over the water and a towel over your head to trap in the steam. Keep your eyes closed as you inhale through your nose.

Make a bottled spray or spritz with 10-15 drops of your favorite essential oil and one ounce of water.

Topical use

Drop it into a bath. While a bathing ritual itself can be a self-soothing treatment, adding essential oils can further benefit you.

Dilute essential oils with a carrier oil and apply the mixture to your skin. Gently rub the oil into pressure points such as your temples and wrists.

Add a few drops of essential oils to your shampoo, conditioner, and body wash or lotion.
